

CST-ARWIN

High reliability AC and brushless DC motors, fans, blowers, heat exchangers and power conversion devices for military and aerospace

BUD Industries is a leading manufacturer of standard and custom electronic enclosures, racks and cabinets. BUD has a complete line of polycarbonate, ABS, fiberglass, aluminum enclosures and sheet metal and aluminum racks and cabinets. NEMA rated products

Conductive rubber keypads and plastic technology. CAD/CAM design capabilities available, back lit silicon rubber switches for military and industrial purposes

Reed relays and dry reed switches

E-Switch offers one of the broadest switch lines available today, delivering innovative and quality switches to the electronics, telecom, high tech, instrumentation, industrial, appliance and consumer markets since 1979. Products include Rocker, Toggle, Slide, Tact, Pushbutton, Dip, Rotary, Keylock, Snap Action, Power, illuminated switches, and more.

Hansen Corporation
a Minebea Group Company

Hansen Corporation manufactures a variety of DC Motors, Synchronous Motors, AC Clock Movements, and Stepper Motors used in applications for automotive, HVAC systems, instrumentation, office equipment, and medical equipment.

Leader in the custom design and manufacture of hermetic interconnect products including microelectronic packages, end seals, TOs, and various style connectors/headers

NMB Technologies, a pioneer in high volume manufacturing of electro-mechanical components, offers a comprehensive line of cooling products, including AC & DC axial Fans and Blowers.

Toronto	• 1420 Bayly Street, Unit 3A	• Pickering, Ontario, L1W 3R4	• Tel. (905) 421-0114	• Fax: (905) 421-0117
Montreal	• 970 Montée de Liesse, Suite 302	• St. Laurent, Québec, H4T 1W7	• Tel. (514) 332-5115	• Fax: (514) 336-8388
Vancouver	• Suite 866-1641 Lonsdale Avenue	• North Vancouver, B.C. V7M 2J5	• Tel. (604) 980-4557	• Fax: (604) 980-8199

CST-ARWIN

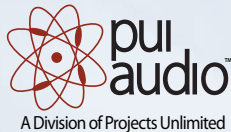

NIC Components

Ceramic, Tantalum, Film and Aluminum Electrolytic Capacitors. Resistor Chips and Arrays, Film Resistors and networks, SMD Thermistors, Inductors, Ferrite Chip Beads. Leaded Ceramic Disc, Film and Tantalum Capacitors, Axial, Radial and Snap-In Aluminum Electrolytic Capacitors. Low ESR / High Frequency Solutions

Power-One is a leader in the power conversion industry. Power-One offers an industry leading broad range of Ac/Dc and Dc/Dc products. Rack mount front ends from 300W-3000W including current sharing for N+ 1 configuration with industry leading platinum efficiencies of 96%. All have Ac and Dc input options. Open frame 3x5 Ac/Dc PS's up to 150W and a complete offering of open frame up to 500W. Power-One offers the broadest range of high-power-density board-level DC-DC products: DPA fractional bricks, 1/2, 1/4, 1/8 and 1/16th bricks all with 90%+ efficiency. Power-One offers a complete range of Analog POL's. Power-One also offers a complete Digital POL solution with its proprietary "Z" Bus technology.

Manufacturer and supplier of quality audio devices and components including buzzers, alerts, piezo benders, speakers and receivers

Qualtek offers a complete line of fan accessories, power entry receptacles, EMI power line filters, power supply cords and cord sets, custom cable assemblies and wire harnesses and heat shrink tubing. The IPS Division provides a wide range of turnkey & component procurement services

Manufacturer Of: Frequency control products including quartz crystals, clocks oscillators, crystal filters, voltage controlled crystal oscillators, temperature compensated crystal oscillators and VC temperature compensated crystal oscillators, SMD TCXOs, SMD VCTCXOs. SMD crystals, SMD clock oscillators, SMD VCXOs.

PCBs. Capability for 2-18 layers (mass production) and 20-24 layers (small lots). Offering design flexibility, uncompromising quality and fast turnaround. ISO 140001, ISO 9002 and QS9000
